## Addendum To Petition To Make Special Filed March 17, 2004

This Petition to Make Special because of the Applicant's Age, which was filed on March 17, 2004, has not yet been acted upon probably because the application contained missing parts only recently supplied. It is also here noted that applicant's attorney was recently informed that such a petition must contain a confirmation by the applicant of his age. This was previously missing from the Petition.

Accordingly, there is submitted below the signature of applicant which confirms that he is presently 85 years of age, since his birthday is May 10, 1919.

It is thus requested that the Patent Office confirm the filing of the original Petition and that the Patent Office soon act favorably on the application.

Respectfully Requested,

Russell E. Hattis, Applicant's Attorney

Myer Hecht, the Applicant of the above-identified application, does hereby confirm that he is presently 85 years old, having been born on May 10, 1919.
